Trees in high quality with an estimated remaining life expectancy of at least 40 years.

Category 9

Trees in moderate quality with an estimated remaining life expectancy of at least 20 years.

Category 10

Trees in poor quality with an estimated remaining life expectancy of at least 10 years for young trees with a stem diameter below 150mm.

Category 11

Trees in a condition that the tree cannot logically be retained as living trees in the context of the current land use for longer than 10 years.
