**PLANTING NOTES:**

1. All planting is to be carried out in accordance with Plant Handling (see above) and in accordance with current British Standards and Codes of Practice.

2. Trees are to be staked and secured as follows:
   - Heavy standards and Multi-stemmed trees: 1500mm, painted silver, square section with slanted top.
   - Cycle Stands: 2no Sheffield Style.

3. For the ornamental trees:
   - One number 80 litre bag of tree planting compost (non-peat based) is to be incorporated into tree pits.

4. Shrub beds to have a min depth of 450mm good quality topsoil, beds should be cultivated prior to planting and be free from weeds or any stones/rubble material greater than 50mm in size.

5. All trees are to be staked and secured as follows:
   - Heavy standard are to be double staked using short stakes (at 600mm above ground level) and secured with a cross bar and rubber webbing tie and spacer.

6. All BR Whips and BR stock (proposed hedge) to be protected with a spiral bound tree-shrub guard and secured into place with a cane. Ensure that the areas around the base of the trees are clear of any obstructions.

7. All planting is to be carried out according to manufacturers' instructions. Some DUO dust mix from Emergrain at a rate of 6g per square metre.

8. Proprietary root ball cover and root ball protectors are to be used on all root ball plants.

9. Concrete haunching to bollard 125x255mm kerb. Broxap mild steel galvanised bollard, square section with slanted top.

10. A47 NORWICH SOUTHERN BYPASS: Existing Trees to be removed.

11. Existing Trees to be retained.

12. Proposed Hedge - planted in a staggered row at 1 per line in single spacings groups of 5 or 10.

13. Proposed Native Shrub mix - planted at 1 per line in single spacings groups of 5 or 10.

14. Existing Trees to be retained.

15. Heavy standard rootballed pit 1500x1500x750 mm deep.

16. All areas of ornamental planting are to be mulched to a depth of 50mm with medium grade tree bark.

17. It is assumed by the contractor that the between group areas are to be seeded with a general amenity grass mix (unless otherwise advised by the client).

18. Water all plants and trees on the same day of planting and then after a necessary (not once a week in periods of drought) to ensure the establishment of the plants during the designer's defoliation period.

19. Hardstand and Multi-stemmed 1000x1000x750 mm deep.
